

# The actuator that connects with you

Benefit from more efficiency in the work process – with the next generation in actuators

# Developed for the world of today

Digitization is changing and improving many aspects of our lives. At GF Piping Systems we are significantly shaping this progress by constantly developing our products further. Our latest actuator is our first product that can be controlled fully by an app. Take the step with us into the future with our new digital actuator. One app, one actuator, many possibilities.

+ Fits on any standard valve  
(ISO 5211)

+ Optical status-feedback  
thanks to 360°-LED display

## Planning

### + Flexible planning

Thanks to wireless access via an app and the 360°-LED display, an actuator can be installed even in places that are difficult to access.

## Installation

### + Easy pre-configuration

Initial configuration is straight forward via NFC in the de-energized state.

### + Easy P&ID-integration

Every actuator can be assigned a place in a P&ID via NFC.

## Commissioning

Signal tests and optical feedback make your life easier.

### + Easy data handling

All settings can be saved and exported.

Work smarter  
not harder.

## + Wireless control

Thanks to the app you can access the actuator via Smartphone - to read data, for control or for system diagnosis.

## + Easy access to relevant data

Operating data such as the number of cycles or current drawn is available directly in the app.

## Operation

## Maintenance

### + Better overview

Thanks to the 360°-LED status display, system availability can be determined quickly.

### + Effortless diagnosis
