Ball Valve 546 Pro

# Modular and flexible design

When optimizing a piping system, the Ball Valve 546 Pro is a decisive component in increasing overall efficiency. It helps to reduce service and retrofitting costs, reduces the risk of operating errors and sabotage, and anticipates future requirements – from regulatory changes to digitization.

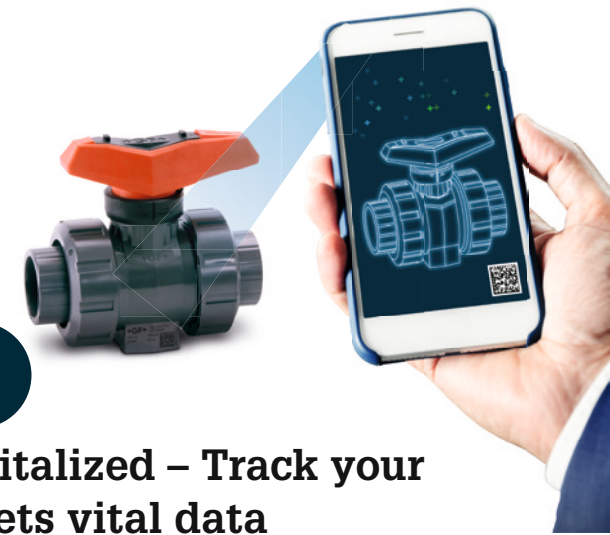

**Never forgets to protect what's critical**

Manual reset unit

**Digitalized – Track your assets vital data**

Information via Data-Matrix-Code

**Simplicity and safety built into every valve**

New lever is lockable as standard

**Flexible actuation options**

New generation pneumatic and electric actuator

**Instantly keeps your operators in touch**

Electric LED position feedback
