

GF Piping Systems

**+GF+**

# Stronger together

**Jointing Solutions**

Strong partner for quality and durability

# Peace of mind through jointing excellence

Experience jointing excellence with our advanced thermoplastic materials and plug-and-play jointing solutions, backed by 60 years of trusted expertise.

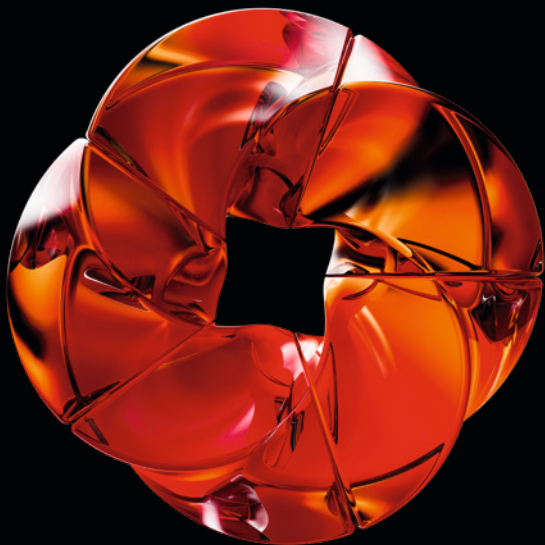

## **Strong operational safety**

Ensuring joint integrity is vital for safety and reducing costly downtime. With automated fusion technology and state-of-the-art weld bead testing tools, we ensure optimal weld quality and safety in your operations.

## **Strong and fast installation**

Construction projects stay on schedule when fast installation supports efficiency, which is why our prefabrication workshops use our premium materials combined with plug-and-play jointing technologies.

### **Strong global partner**

One single global supplier, offering tailored polymer and jointing solutions with 60+ years of expertise across 33 countries, ensuring excellence from large construction sites to pristine cleanrooms.

### **Strong and sustainable connections**

Flexible rental options offer expertly serviced machines, while strong connections ensure the durability and sustainability of piping systems that perform effectively for years to come.

# Versatile jointing solutions for application-optimized connections

From material supply to cutting-edge jointing solutions, GF is your trusted partner, offering 7 jointing technologies to address today's industry complexities.

**> 60,000 products**  
**7 jointing technologies**  
**1 single supplier.**

## Precision leads to success and quality

Reliable piping connections are the backbone of resilient systems and operational efficiency. Flawless jointing helps maintain the seamless media flow in your piping systems.

## Knowledge is power

89% of construction firms faced challenges in hiring skilled workers in 2023<sup>1</sup>.

To address the shortage of skilled workers, we offer comprehensive training programs, across our 26 training centers.

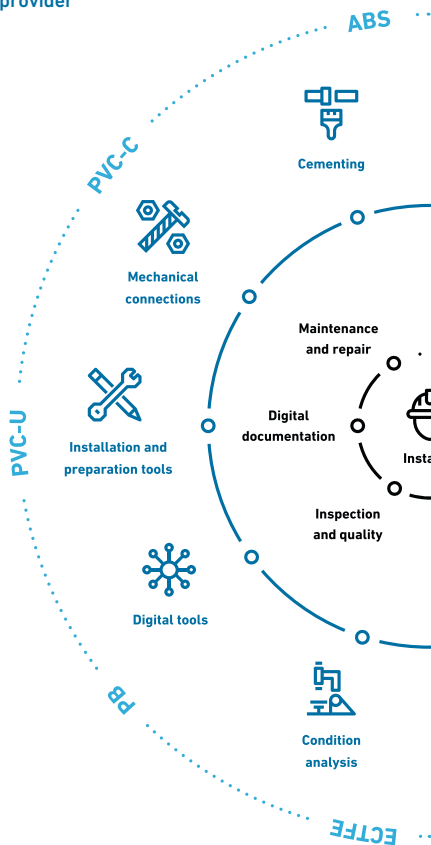

## Trusted partner with a 60+ legacy

With over 60 years of expertise in polymer piping systems and three decades in infrared fusion technology, we are pioneers in jointing solutions.

# Stronger together

Transform your individual piping system components into seamless flow solutions with our cutting-edge jointing solutions. We cover every step from pipe preparation and fusion to inspections and training, ensuring jointing excellence.
