Traisen, October 22

POP Regulation (EU) 2019/1021

Dear Ladies and Gentlemen

Georg Fischer Malleable cast iron fittings according to EN 10242 are produced out of whiteheart malleable cast iron according to EN 1562.

The material EN-GJMW-400-5, as well as the zinc layer (in case of hot dip galvanised and electroplated fittings) used in our production fulfil the requirements of the **POP Regulation (EU) 2019/1021** on persistent organic pollutants in its latest version with regard to the chemical analysis limits specified therein.

Best regards

Georg Fischer Fittings GmbH

Stefan Pandalitschka
Product Manager Malleable Cast Iron Fittings

Mario Leodolter
Head of Environmental Management
