### **GF Piping Systems earns Jiarong Technology's 2023 Excellent Supplier Award**

**GF Piping Systems China earned a "2023 Excellent Supplier" award from Xiamen Jiarong Technology Co. Ltd., a leading player in the Chinese membrane technology industry, for providing the company with high-quality and reliable products and services.**

Xiamen Jiarong Technology focuses on high-difficulty wastewater treatment, providing customers with high-end environmental protection equipment and operation services, and uses GF Piping Systems' Process Automation solutions in their mobile landfill leachate treatment system. Five "2023 Excellent Supplier" awards were given out this January.

GF Piping Systems' years of technical accumulation and domain experience in water and wastewater treatment brought the two companies together in 2010. GF Piping Systems' various high-quality flow and analysis instruments, such as flow rate, pH/ORP, conductivity, etc., and automation products, have achieved stable and reliable application in Jiarong Technology's garbage leachate treatment products.

Mr. Dong Zhengjun, General Manager of Jiarong Technology, comments on the cooperation between the two parties: "GF Piping Systems provides high-quality products and services for Jiarong Technology. We deeply appreciate GF's professional spirit in quality control and customer service and look forward to continuing the close cooperative relationship between the two parties to provide more high-quality products and services in the future."

"We are very honored and proud to receive Jiarong Technology's award as a trusted partner for our products and services, and we look forward to continue this strong relation with many following projects," expresses Joost Geginat, President of GF Piping Systems.

**GF Piping Systems**

As the leading flow solutions provider for the safe and sustainable transport of fluids, GF Piping Systems creates connections for life. The division focuses on industry-leading leak-free piping solutions for numerous demanding end-market segments. Its strong focus on customer-centricity and innovation is reflected by its global sales, service, and manufacturing footprint and its award-winning portfolio, including fittings, valves, pipes, automation, fabrication, and jointing technologies.

GF Piping Systems has its own sales companies in 31 countries, which means it is always by its customers' side. Production sites in 36 locations in America, Europe, and Asia ensure sufficient availability and quick, reliable delivery. In 2022, GF Piping Systems generated sales of CHF 2'160 million and employed 8'085 people. GF Piping Systems is a division of Georg Fischer AG, founded in 1802 and headquartered in Schaffhausen, Switzerland.
