Schaffhausen

22 November 2022

### **GF Piping Systems India: 30% of the plant's electricity harnessed from the roof**

**In a further step to reduce the CO<sub>2</sub> footprint, in line with its Strategy 2025, GF Piping Systems India installed solar panels to account for approximately a gigawatt-hour per year.**

GF Piping Systems is committed to enabling the safe and sustainable transport of water, gas, and chemicals. The industry sustainability leader installed a solar energy system with 2239 modules on its production site and warehouse roof. The panels have a capacity of 750 kWp and will reduce GF Piping Systems India's CO<sub>2</sub> emissions by approximately 1000 tons per year.

"Implementing solar cells on the rooftops of our production plant is another milestone in line with our Strategy 2025, which commits us to reduce our CO<sub>2</sub>e emissions by 21% until 2025", states Shekhar Jagtap, Managing Director of GF Piping Systems India. "Electricity makes up around 50% of total energy consumption at GF Piping Systems and is thus an important lever to reduce operational greenhouse gas emissions. In the next phase, we will install additional panels for 250 kWp in 2023 to further increase the share of renewable energy in the future."

#### **About GF Piping Systems**

As the leading flow solutions provider for the safe and sustainable transport of fluids, GF Piping Systems creates connections for life. The division focuses on industry-leading leak-free piping solutions for numerous demanding end-market segments. Its strong focus on customer-centricity and innovation is reflected by its global sales, service, and manufacturing footprint and its award-winning portfolio, including fittings, valves, pipes, automation, fabrication, and jointing technologies.

GF Piping Systems has its own sales companies in 31 countries, which means it is always by its customers' side. Production sites in 36 locations in America, Europe, and Asia ensure sufficient availability and quick, reliable delivery. In 2021, GF Piping Systems generated sales of CHF 1'971 million and employed 7'686 people. GF Piping Systems is a division of Georg Fischer AG, founded in 1802 and headquartered in Schaffhausen, Switzerland.
