Empowered through Partnership

Empowered through Partnership

As two industry-leading organisations respectively, the established, enduring partnership between Envipure and GF Piping Systems has elevated both companies to greater heights, as the collaboration has secured more competitive price points for materials and services.

Georg Fischer Ltd. comprises four distinct divisions: GF Piping Systems, GF Uponor, GF Casting Solutions, and GF Machining Solutions. As a result, the company is an all-encompassing solutions provider and has been devotedly collaborating with environmental engineering titans, Envipure, for over 15 years.

The long-standing partnership has facilitated continuous cost reduction through the optimisation of the ordering and delivery processes, bringing forth many complementary strengths.

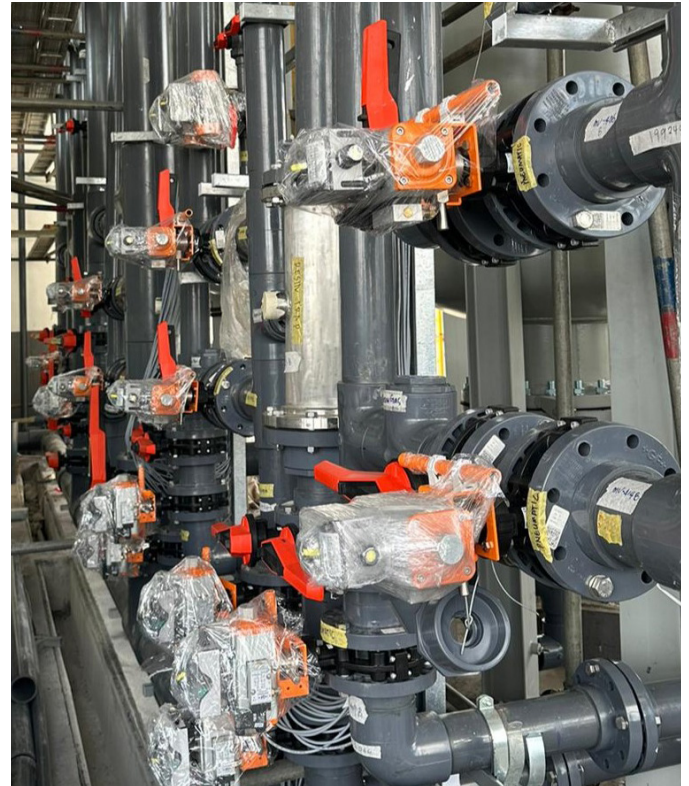

The synergy between the two companies is based on a mutually beneficial arrangement that was created to enable the attainment of shared goals, such as achieving optimal quality.

Additionally, through a collaborative effort, both Envipure and GF Piping Systems can leverage each other's complementary strengths to streamline processes and enhance efficiency, ultimately fostering an environment where both parties thrive in the pursuit of common objectives.

Through Envipure's vast multitude of projects, GF Piping Systems expertise is most greatly highlighted in the Micron Singapore Fab 10 and Infineon Melaka Block 11 projects. These stand as recent examples of the expertise between Envipure and GF Piping Systems, as well as the collective strengths of each company in delivering successful outcomes.

In times of challenge for Envipure, GF Piping Systems comprehensive solutions have been instrumental in addressing and alleviating difficulties. In testament to this, Envipure has not yet encountered any product failures or non-conforming products, which underscores the consistent reliability and high standards GF Piping Systems has become known for.

In the upcoming year, Envipure envisions the flourishing continuation of the partnership between itself and GF Piping Systems, as it places great value on the collaborative pursuit of offering high-value, sustainable products and solutions.

Customer benefits

- **Faster turn-around on quote**
- **Lead time optimization to meet their project schedule**
- **Economical: low maintenance costs and fewer interruptions to operations**
