After completing the E-Learning content and final exam, take a moment to watch Instructor Lead Assembly. This video will give you step by step instruction on how to complete your student assemblies. Student Assemblies will be conducted at your own pace. An affidavit of completion will need to be completed and returned with your student assemblies. Student Assemblies will be destructively tested at GFCP.			

\*Times Test: The final exam is a timed test, the test should be completed one hour and 40 minutes after it has been started. Ensure you have your EF Manual and any notes taken during class before beginning this final test. An 80% or higher score is needed to successfully complete this training course.

**BREAK:** Please help yourself to a few breaks through the day to stay refreshed and alert during the e-learning curriculum.
